

# We Are Tea

## Loose Leaf Brewing Guide

Here are some simple guidelines to assist you in serving top quality We Are Tea.

### Preparation:

- Fill caddies with corresponding loose-leaf teas & store excess tea in sealed bag provided to ensure freshness.
- Place proper size scoop inside caddy with tea (as per Tea/Scoop guide). Store scoop there to remove the guessing each time you make a cup.
- Display caddies in a pleasant and eye-catching way, with labels in view to help customers choose.
- Prepare timers on countdown mode for 90s (1:30).
- Prepare brewing stations pairing each infuser with a timer.

### Brewing:

1. Using the specified scoops – place 1 level scoop of loose tea into a clean infuser.
2. Add freshly drawn boiling water (temperature is important) to the infuser and tea. Fill to the top of the 'tea' logo for a 12oz cup of tea.
3. Start timer on 1 min 30 second countdown.
4. After specified time, place the infuser on top of cup to decant. This is a great stage to do on front of counter so the customer can watch as it's exciting and looks great. You can chat to them about why this makes a better cup of tea!
5. Serve tea with a smile!
6. Tap out loose tea leaves immediately, and thoroughly rinse infuser so that it is ready for the next brew.
7. Infusers should be cleaned more thoroughly at least on a weekly basis.

## Scoop Sizes:

Tea	Scoop	Equivalent
English Breakfast	20ml	4 teaspoons or 1 tbsp & 1 tsp
Assam	20ml	4 teaspoons or 1 tbsp & 1 tsp
